

GAOKEview®

GAOKE GOOSENECK SCANNER

Gooseneck design | Multi-angle shooting

- Colorful colors, highlight individuality
- 120° wide-angle lens A3 large format shooting
- LED fill light, arbitrary adjustment of light intensity
- Accurate text recognition automatic WORD typesetting
- Paperless fax technology·One-key E-MAIL technology

COLOR

VERY POPULAR IN EDUCATION A AND BUSINESS

- Folding design, one-key scanning, one-second high-speed scanning;
- Realize stereoscopic physical scanning, with physical display function;
- Image size can be adjusted freely and image processing;
- Direct connection to the computer, capacity guarantee, instant storage and transmission, storage and document conversion;
- Easily deal with A3 large-format documents, drawings, posters, and magazines;
- flexible shooting Angle and filling light Angle, can shoot different Angle of objects;
- Super software integrates advanced functions such as paperless fax, data conversion, sensor photography, etc.

FOCUS ON BUSINESS

Advanced Gaoke gooseneck Scanner provides you with an unprecedented and convenient experience! It is a collection of scanning instrument, video camera, video frequency display stand and other instruments in one, perfect to meet the business needs of document scanning, network video conference, product projection exhibition and so on.

FOCUS ON EDUCATION

Advanced gooseneck high camera, unique hose design is more suitable for teaching demonstration, multi-angle recording of real objects, flexible transformation. Dedicated high-tech software system has a wealth of digital power, so that you are more handy in the teaching demonstration.

PRODUCT FEATURES

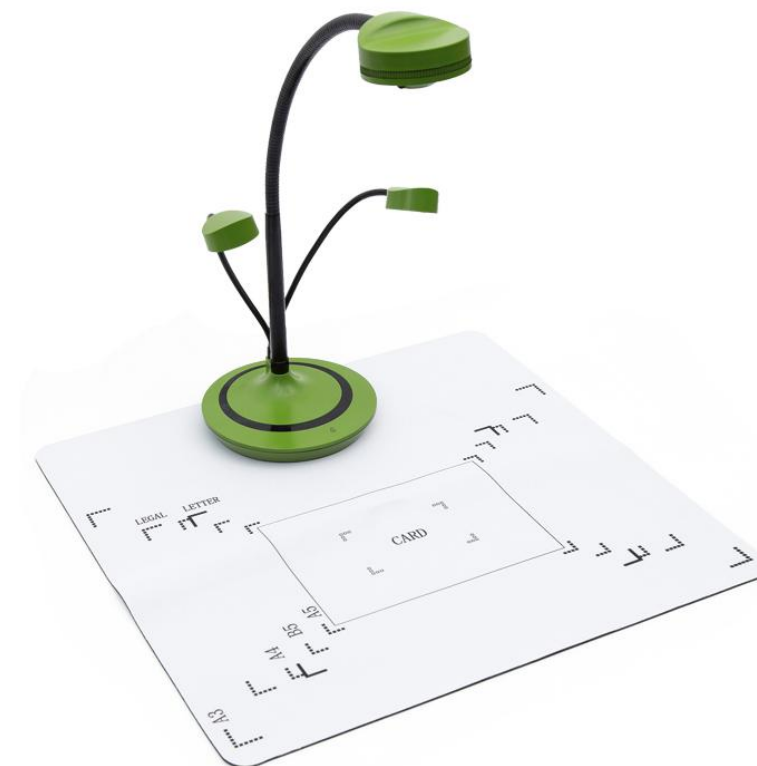

Quick scan · One-click completion

Clicking the scan button with the mouse and complete the scan with one key, the fastest one second

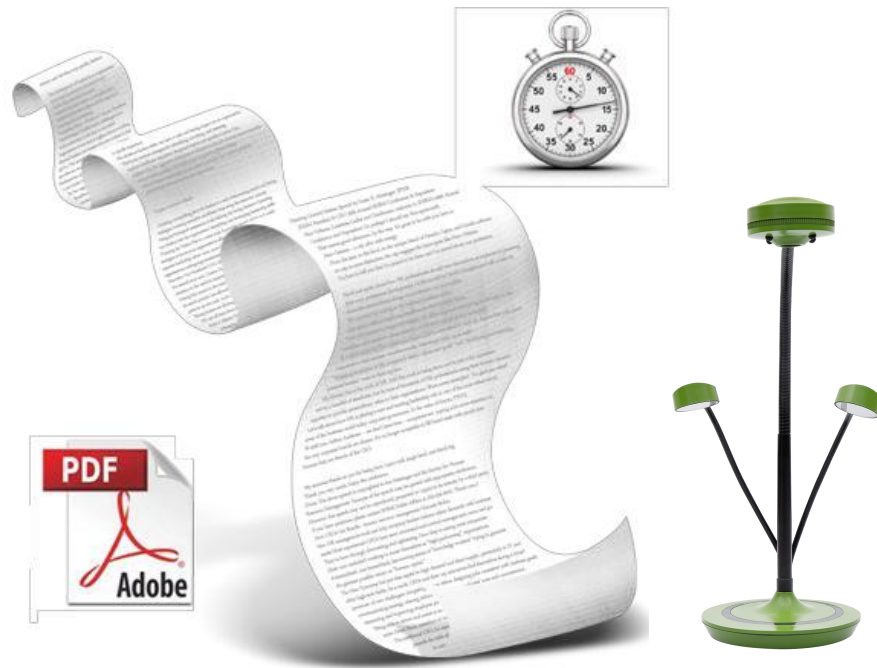

A3 or below panoramic scan

Data, certificates, bills, all kinds of large documents, real objects can be shot

Timed scanning · quick remake

Scan time interval can be set, automatic quick shoot of a large number of documents

Picture sensing · Automatic photography

When the image in the video capture area changes, the system automatically implements the function of taking pictures

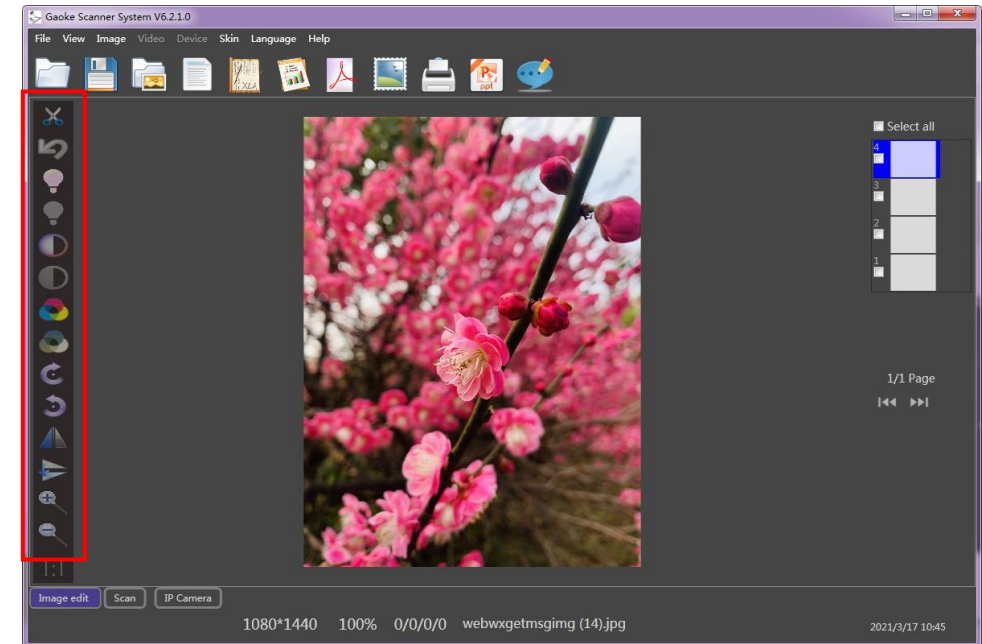

Record video·Real-time projection

Video recording, playback, annotation and other functions can be used in product training, demonstration and experimental teaching

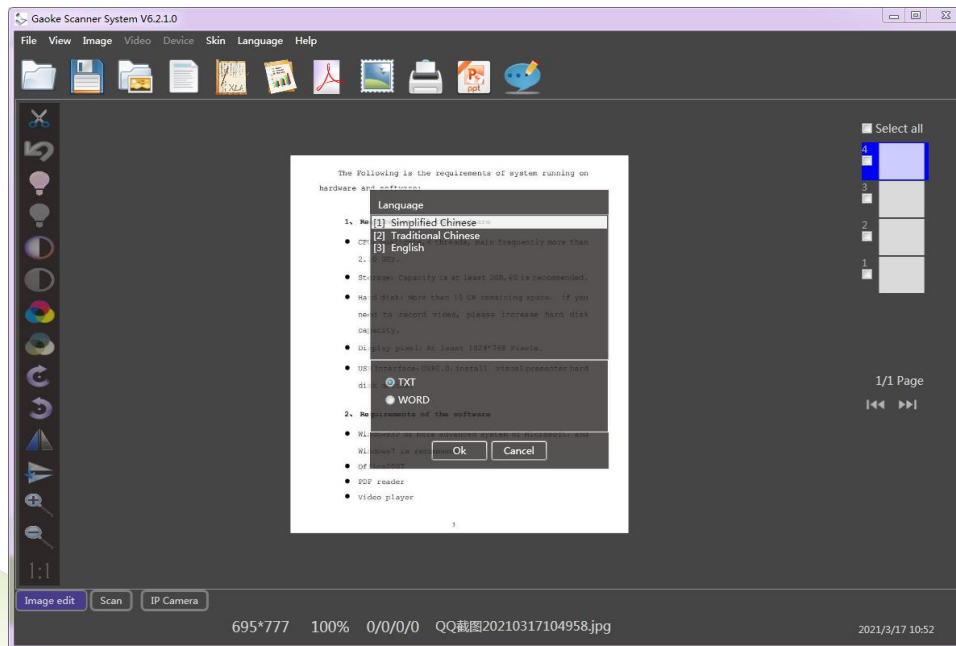

Graphics context editing processing

Powerful image and text editing and processing function, can be clipped, color, correction and various effects of the picture processing

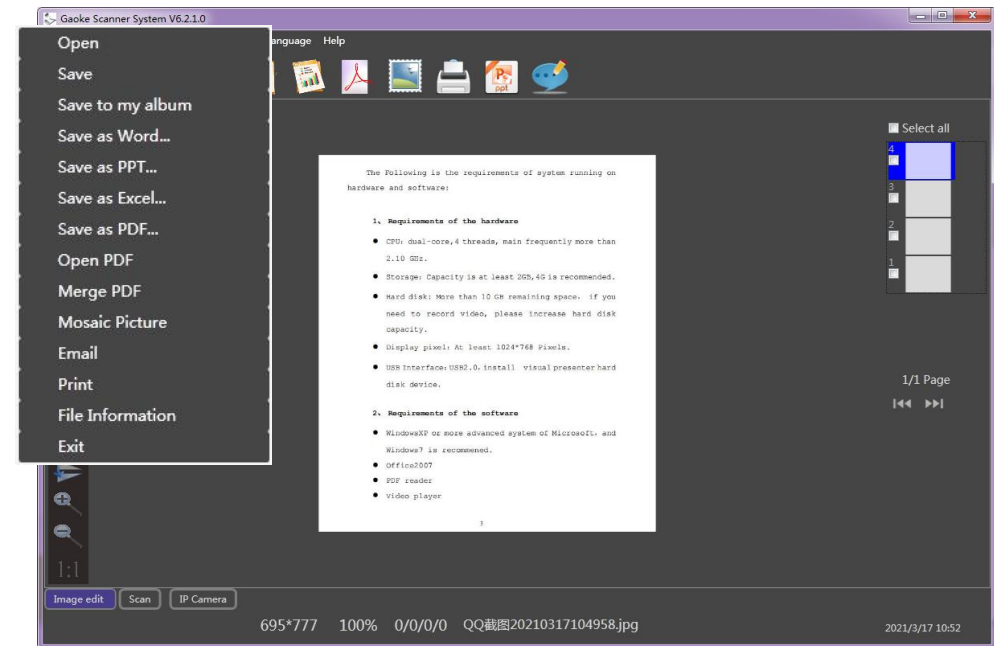

OCR text, form recognition technology

Automatically recognize the text in the picture, and can be converted into various documents such as word/ppt/excel/pdf, or sent directly by email

File batch processing

Batch operation and processing of picture files, bound into a book and directly converted into word/ppt/excel/pdf and other documents

PRODUCT SIZE

Model	GK-S6	GK-S6+	GK-S6WF(Wireless models)
Shooting area	A3 (MAX)		
Total pixels	13 Mega pixels		
Lens	CMOS Lens. 120° Wide-angle lens. Sensor specification: 1/3 inch. Zoom: 30X		
Resolution	4192x3104		
Power supply	USB 2.0	USB 2.0\DC5V	USB 2.0*1, 5000mA Battery, standby for 8 hours
Remote control method	\	Zoom in, zoom out, freeze, rotate, focus	\
Connection way	USB 2.0	USB2.0*2, HDMI, DC5V, Built-in MIC	USB 2.0 power supply, wireless WiFi transmission
AGC/AEC/White balance	Automatic/ Manual		
Software function	Brightness exposure, sharpness, color, saturation, sharpness, grayscale, hue, contrast, white balance, ect		
N. W. /G. W.	1Kg/1.7Kg		
Open/Close	270×150×420mm/150×150×220mm		
Control method	Touch Panel, Software Control	Touch Panel, Software Control, Remote Control	Touch Panel, Software Control
